

The
Emeritus College Colloquium Series

PRESENTS

William F. Causey

National Air and Space Museum,
Adjunct Professor of Law,
Georgetown University Law Center

***From the Earth to the Moon: NASA
and the Legacy of John Houbolt,
A Hero of the Moon Landings***

In May 1961, when President Kennedy announced that the United States would attempt to land a man on the moon and return him safely to the earth before the end of that decade, NASA did not yet have a specific plan for how to accomplish that goal. It was a small group of engineers led by John C. Houbolt, who risked his career in the face of overwhelming opposition, that came up with the plan that propelled human beings to the moon and back—not only safely, but faster, cheaper, and more reliably.

**Monday, April 21
3:00 – 4:00 p.m.
Marston Exploratory Theater
ISTB 4, 781 E Terrace Mall, ASU**

Emeritus College Colloquia are open to the public free of charge, but due to space limitations it is required to RSVP at emerituscollege@asu.edu. Parking at University parking structures will be validated.
